

THE GLOBAL PRIVATE CREDIT OPPORTUNITY

11

WHAT IS INVESTABLE PRIVATE CREDIT?

Individually customised non-bank loans to mid-market companies, with seniority and security, that are held to maturity or refinanced.

A BROAD OPPORTUNITY SET

Direct Lending	 Bilaterally negotiated loans, primarily to companies earning US10-\$250 million EBITDA ("Middle Market") Senior Secured – these loans have first right to the cash flows and assets of a company for payment of interest and repayment of debts. They will also have additional documented protections (covenants) which help the lender spot problems early and arrange remedies. Mezzanine – unsecured loans which only receive payment after Senior Secured lenders have been paid. In return for the subordinated position, the lender is paid a higher rate of interest and often receives additional upside, normally through an equity-linked instrument. Unitranche – a single loan combining the characteristics of Senior Secured and Mezzanine loans.
Structured Credit / Specialty Finance	 A wide range of products that are typically backed by assets Structured Credit – loans typically made to non-bank lenders that are backed by the cash flows from portfolios of financial assets (e.g. lending to companies that provide consumer loans, commercial loans, or trade receivables). Specialty Finance - loans typically made to owners of niche assets by lenders with specialised expertise to assess the value of these assets and their cash flows. Examples include: Royalty lending against a pool of pharmaceutical patents or music catalogues; and Loans against cash generative assets like aeroplanes or mining equipment
Distressed Investing	 Purchasing deeply discounted debt in distressed companies The objective of such investments is to benefit from a turnaround in the company's profitability, either through improved financial performance, refinancing or restructuring. Active strategies require a complex set of managerial, legal and operational skills.

GROWING DEMAND – A CASE FOR THE BORROWERS

Banks are scaling back lending as regulation decreases their appetite for certain activities

Private lenders now the first "port of call" for growing subset of borrowers

Global Private Credit – Growth in AUM²

Borrowers increasingly demand flexible solutions that can be quickly executed

THE CASE FOR INVESTORS

Attractive Characteristics of Global Private Credit

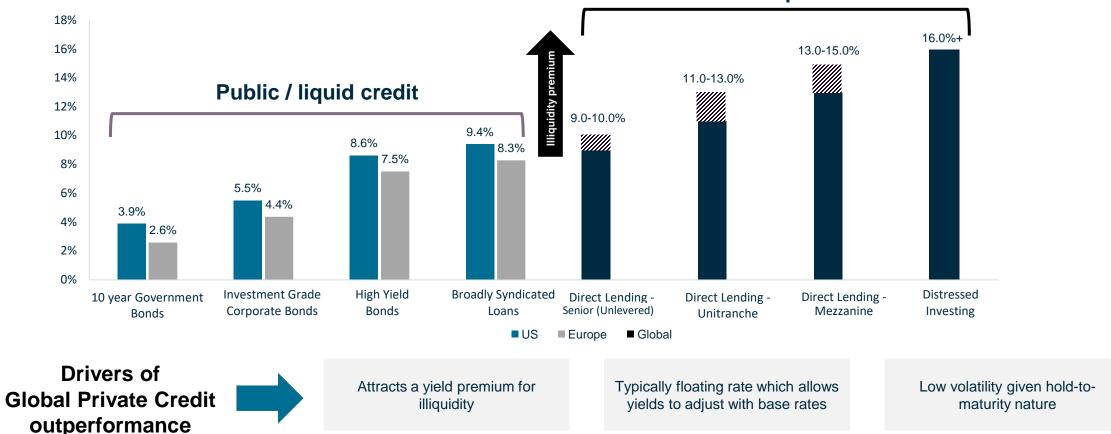

- **Yield** strategic partnership. • Diversification • Resilience
 - Attractive stable returns with low volatility as illiquidity premium is captured.
 - Borrowers pay premium for flexibility, speed of execution, customisation, confidentiality, and
 - Yields are amplified by origination fees.
 - Reduced correlation to more traditional asset classes.
 - Potential to create diversified private credit portfolio (lending to different sectors with different terms) further reducing volatility and correlations.
 - Diverse range of investment strategies provide a range of risk/return options from stable income to equity-like returns.
 - Loans are typically individually negotiated and structured, allowing the borrower to obtain legally enforceable protections. This leads to lower default rates and higher recovery rates than other fixed income alternatives.

GLOBAL PRIVATE CREDIT HAS DELIVERED A ROBUST YIELD PREMIUM OVER TIME

GLOBAL PRIVATE CREDIT RESILIENCE

Lower levels of default and higher recovery rates are achieved through bespoke structuring and lender access to information and executive management

Drivers of default¹

Company size is the least significant factor in default scenarios

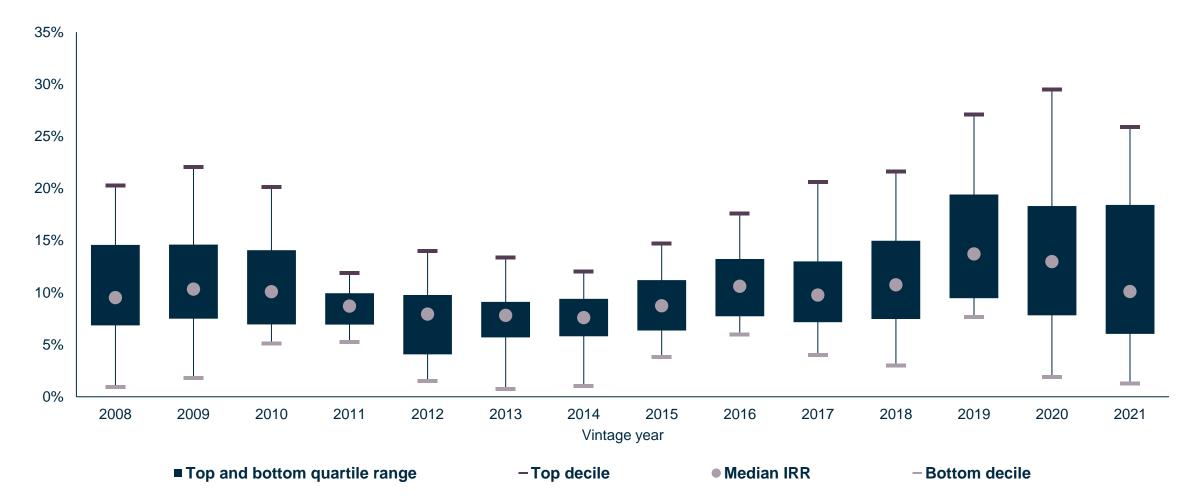

Credit fundamentals matter regardless of company size with leverage and serviceability having the largest impact.

Experienced private credit managers are well positioned to manage fundamental credit risks due to:

- Access to detailed information in due diligence
- Specialist expertise and sector specialisation
- Greater levels of control from negotiated contractual protections
- Ongoing information access allows early detection of potential issues
- Operational and workout experience

MANAGER SELECTION IS CRITICAL TO OUTCOMES
